Department of Justice-State and Local Reentry Courts- Second Chance Act	<p>Creation of reentry courts similar to those established for non-violent offenders (possible 50% match). \$10M total allocation. More specifically, Section 111 authorizes the creation of state, local, and tribal reentry courts to monitor offenders and provide them with the treatment services needed to establish a self-sustaining and law-abiding life. Modeled after the success of the drug court approach, reentry courts represent a relatively new form of jurisprudence. Focused on the back-end of the criminal justice system, the reentry court is designed to leverage partnerships between courts and corrections to facilitate successful offender reintegration. The concept of the reentry court necessitates considerable cooperation between corrections and local judiciaries, as it requires the coordination of the work of prisons and jails in preparing offenders for release and actively involving community corrections agencies and various community resources in transitioning offenders back into the community through active judicial oversight.</p> <p>http://www07.grants.gov/search/search.do;jsessionid=nKpwLWhKWZ1rHW339nlhCyPsZQLqJyQ6F5XhnW2kShJ6GZw2g2BZ!-195756103?oppId=53730&mode=VIEW</p>

<p>Department of Commerce- Economic Development Assistant Recovery Act Program</p>	<p>Under this FFO, EDA will give priority consideration to those applications that will significantly benefit regions “that have experienced sudden and severe economic dislocation and job loss due to corporate restructuring,” as stipulated under the Recovery Act. EDA provides financial assistance to distressed communities in both urban and rural regions. Such distress may exist in a variety of forms, including high levels of unemployment, low income levels, large concentrations of low-income families, significant declines in per capita income, large numbers (or high rates) of business failures, sudden major layoffs or plant closures, trade impacts, military base closures, natural or other major disasters, depletion of natural resources, reduced tax bases, or substantial loss of population because of the lack of employment opportunities. EDA’s experience has shown that regional economic development to help alleviate these conditions is effected primarily through investments and decisions made by the private sector. Under the EDA American Recovery Program, EDA will help restore, replace and expand economic activity in regions that have experienced sudden and severe economic dislocation and job loss due to corporate restructuring, and prioritize projects that will diversify the economic base and lead to a stronger, more globally competitive and resilient regional economy. EDA’s economic development activities help create jobs by encouraging business inception and growth. http://www.eda.gov/PDF/FY09ARRAFFOFINAL031309.pdf</p>
