

Prison News Network

Vision Statement

PNN is committed to continued growth in all departments by keeping up with current trends and technology. PNN envisions steady growth by serving the community, State agencies and ODR&C with high-quality video, graphics, animation, and web-design using custom creative solutions.

Mission Statement

PNN will provide high quality, professional products in the areas of video, audio, graphics, animation, web-design, and customized software solutions. The intention of these productions is to train, educate, inform and entertain. The inside talent and creative resources used by PNN makes products available to the community that otherwise would not be attainable due to cost considerations.

PNN strives to serve the community (non-profit organizations) and State agencies as well as being the central distribution center for the ODR&C.

PNN History

PNN was established in 1992 as a video production department for the purpose of informing the residents at MCI of health concerns, shortly after PNN began producing training videos. PNN has steadily grown with demand adding a Graphics, Audio, and Animation Department. In 2006 PNN expanded to include Web Design capabilities. Currently these departments work in concert to produce high quality professional products and services intended to serve MCI staff and residents. The client base has grown to include ODR&C, State Agencies, schools, churches and non-profit organizations of the community. PNN has a staff of talented and highly skilled men to create the products you need at little or no cost. Please USE US.

Audio Department

The Audio Department is designed to create and produce the highest quality sound products for a variety of applications.

The primary function of the recording studio is to compliment the video department by developing audio tracks to accompany video footage of live events that are filmed.

Many music productions are created from scratch. The wealth of talent is utilized to compose, perform, edit, mix and master music onto CD's and DVD's.

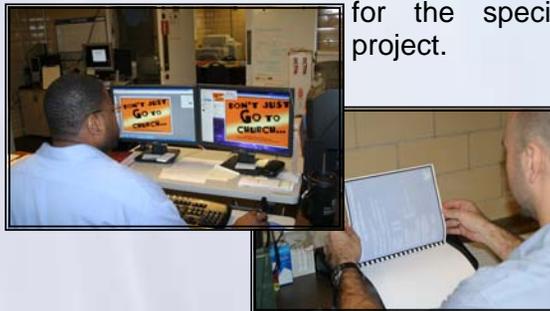

Video Department

The PNN Video Department was established to provide the MCI resident community with instructional videos. This is accomplished through the use of the institutions closed circuit cable system. The abilities and output have expanded greatly since then. PNN shoots and broadcasts a variety of programs on a daily schedule. PNN now has a trained staff of talented and skillful men to produce professional videos for MCI, ODR&C, State agencies, and a variety of community organizations.

Graphics Department

The Graphics Department produces precision high quality products for our clients including: posters, banners, certificates, brochures, newsletters, and powerpoint presentations. The client base has grown to include MCI, ODR&C, State agencies, schools, churches and community (non-profit organizations). The only cost is the materials needed for the specific project.

Animation Department

In 2006 PNN added the Animation Department. Animation is the creation of a timed sequence or series of graphic images together to give the appearance of continuous movement. Animation is both time-consuming and costly to produce.

PNN's Animation Department can create interactive content which includes: web animations, media advertisements, instructional media, presentations, public service announcements (PSA), games, and more.

Web Design and more..

In 2006 PNN added Web Design to its available services after being asked by DRC to redesign their existing web site. In addition Application Design and programming was introduced in 2007 which includes: database design and custom software solutions.
